Your top secret and confidential letter number 19830 on September 6th, 95

1. To gain the approval from Mr. president, the commander (May God Protect Him) on the study that had been prepared concerning Fedayeen Saddam according to the modifications that had been instructed by the president, and for the chosen number of weapons that are present and are in need of modification, and in the light of the mentioned modifications:
 - a. Tanks Battalion (BT76) is available in the Special Republican Guards.
 - b. (BTR60) armored personnel carrier, exist now in Fedayeen Saddam compound Directorate.
 - c.
2. What is been presented and for being the modern battles becomes movable battles which is depends on the availability of movement in a big range, so most of the world armies resorted to divert most of its foot infantry to mechanized infantry. Therefore, we suggest the diversion of a foot infantry to a mechanized infantry and completion (replenishment) the shortage of armored personnel carriers, which are available in the ministry of defense, the BTR60 armored personnel carrier being the first to be used for chasing the saboteurs in our north, and it proved its proficiency, and success.

The tank (BT 76) which had challenged the (Cork (it is a kind of tank)), and it was easy and unique and conclusively using its in the mountain area, and in order to build up this historical honored side, we suggest divert one of the elite infantry division that working in the northern province into mechanized division.
